HP Pro All-in-One 3520 PC

Get everything you need with the HP Pro All-in-One 3520 Business PC. Powerful enough to handle your everyday workplace computing tasks yet still reliable and affordable. You get a great looking PC with a heritage of quality and reliability and full-featured technology perfect for everyday business use.

HP recommends Windows.

Powerful and stylish

You get a stylish and powerful workhorse ready to meet your needs now and grow with your business later.

• Keep up, exceed and keep on going with the Intel® H61 Express Chipset and your choice of Intel® Celeron™and 2nd and 3rd generation Intel® Pentium™ and Intel® Core™ family processors[1].

• Perfect for customer-facing locations, it has a high-gloss finish and conveniently positioned ports and connectors. The professional design will stand out without standing in the way.

o Side USB 3.0 ports provide convenient access and fast data transfers. Plus, additional USB 2.0 ports on back for all your peripheral connections. There are six (6) total.

o Audio ports conveniently located at the side and rear for greater flexibility.

o Because of its all-in-one design ports and connectors including USB, audio out, microphone and headphone are within reach.

o The integrated 6-in-1 Media Card Reader[2,3] lets you easily transfer photos, files and videos to your computer from various types of memory cards. Supports Secure Digital (SD, SDHC), MultiMedia Card, Memory Stick, and Memory Stick Pro.

Fits in your space

The space-saving, streamlined design frees up your desktop space for an uncluttered computing experience.

• Work comfortably with the 50,8 cm (20") diagonal high definition[4] LCD display that tilts to allow for optimum placement, helping you create an ideal workspace.

• The HP Pro All-in-One 3520 offers available wireless networking for a neat, cable free existence[5,6]. It fits in your environment with less tabletop cable mess with its internal antenna for the 802.11 Wi-Fi[2,5] option. Plug one power cord into the wall and you're ready to go.

Connect and collaborate with ease

Collaborate with colleagues across the globe.

• The space-saving all-in-one form factor integrates desktop computer, 50,8 cm (20") diagonal HD+2 WLED backlit monitor, webcam[2], and dual microphone array to help make collaboration simpler.

• Easy to setup and use. Just unpack, place, plug in, and get to work. No need to hassle with connecting multiple pieces of hardware.

• Chat face-to-face and feel more connected to co-workers at the office, across town or on the other side of the globe using the built in webcam[4] and array microphone. The webcam[4] also captures and lets you instantly review photos and video clips.

The latest technology

Designed to change with your growing needs.

• Includes 2nd and 3rd Generation Intel® Core™ processors[1] and flexible options such as standard SATA hard drives up to 2 TBs[5,7], or slim DVD Writer[7], to meet your business data storage and replication needs today and tomorrow.

• Norton Internet Security is among other productivity and utility preinstalled programs, so all you have to do is follow a few simple steps to setup basic security and power management on your business PC.

• Choose the operating system that works for your business. Your choice of preinstalled and downloadable software helps you get productive quickly, including a subscription of Norton Internet Security[8].

Additional HP Care Pack Services information by product is available at: http://www.hp.com/hps/carepack.

[1] Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
[2] Internet access required.
[3] Don't copy copyright-protected materials. Actual speeds may vary. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6 GB Single Sided/5.2 Double Sided-Version 1.0 Media.
[4] HD content required to view HD images.
[5] Sold separately or as an optional feature.
[6] Wireless access point and Internet access required. Availability of public wireless access points limited.
[7] For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30GB (for desktops for Windows 7) of system disk is reserved for system recovery software.
[8] 60 day trial period. Internet access required to receive updates. First update included. Subscription required for updates thereafter. This software is licensed to you by the manufacturer under the terms of its end user license agreement.
